

SD370

D i g i t a l D u p l i c a t o r

(quality)

(productivity)

(economy)

The Standard SD370 produces high-quality results and makes printing up to an 11" x 17" image area in one pass seem effortless. With color capabilities and the versatility to print on a broad range of stocks, including envelopes, the SD370 provides superior performance, economy, and years of reliable operation.

 **STANDARD**

SD370 Digital Duplicator

The Standard SD370 offers great quality, value, and 11" x 17" printing. Features including book copying, versatile feed capabilities, and easy computer connectivity make the SD370 the perfect choice for applications that require an 11"x 17" print area without stretching the budget.

Versatility

Printing on a broad range of materials, including envelopes and cover stocks, on sheet sizes as small as 4" x 6" and up to 11" x 17", makes the SD370 well suited to handle most print jobs. With a logical and simplified control panel, virtually any user can be productive. Print bulletins, envelopes, programs, calendars, letters, and more, both quickly and easily.

Sharp, Quality Copies

The built-in glass-platen, along with the latest in high-quality imaging technology (CCD), provides the operator additional flexibility and scanning quality. The CCD imaging technology improves scanning quality, even on stocks such as books and 3D objects that can not lie flat on the glass platen. The SD370's enhanced scanning capability results in improved print quality. The SD370 even has a fine mode for 300x400 dpi, scanning those difficult high contrast originals. Whether scanning from the glass-platen or directly downloading a digital document from a computer, high quality results are assured. Combining great equipment features with Standard's high quality line of SD370's inks and masters will produce sharp, clear copies day in and day out, year after year.

Unique Features

- Easy-load master system allows the operator to quickly position the masters in place without waste.
- The SD370's drop-in ink cartridge is easily replaced in seconds.
- A logical and user-friendly control panel clearly verifies settings and features.
- Lockable feed-tray side guides ensure that the paper position remains fixed throughout the entire job. The guides will not vibrate out of position even during long runs and are easily changed to accommodate new paper sizes.
- Air-assist paper exit design helps to guide the printed sheets smoothly, reliably, and mark free from the print drum to the receiving tray.
- Matching capacity feed and receiving trays hold up to 1,000 sheets each.

Productive and Quiet

Delivering its first copy within 27 seconds and then printing at up to 120 sheets per minute makes the SD370 a very efficient method of printing. The SD370's advanced design results in very low sound levels ó less than 70dB(A) and as quiet as copier ó while high print speeds, large production capacity, and cost-per-copy economy all add up to high productivity and savings.

Specifications

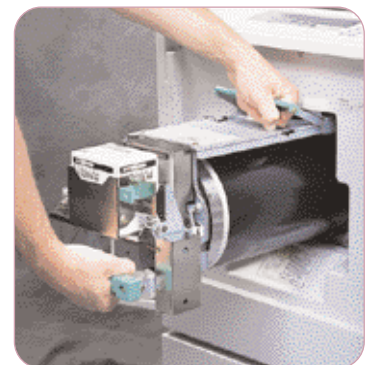

Process:	Automatic Digital Printing
First Copy Time:	27 seconds
Printing Speed:	60 - 120 sheets per minute
Scanning Resolution:	300dpi (300 x 400 dpi in Fine Mode)
Scanning Technology:	CCD (Charge Couple Device)
Paper Size:	2.8" x 5.9" to 11.6" x 17"
Paper Weight:	13 lb. Bond to 110 lb. Index
Image Area:	11.4" x 16.2"
Paper Tray Capacity:	1000 sheets (20 lb. Bond)
Master Roll Capacity:	220 masters/roll
Master Eject Tray Capacity:	50
ADF(Optional):	50 originals (13 - 34 lb. Bond)
ADF Original Size:	5.9" x 8.3" to 11.7" x 34"
Platen Original Size:	Up to 12" x 17.7"
Print Colors:	7 standard colors: Black, Red, Blue, Green, Orange, Purple, and Teal. Custom colors available.
Standard Features:	Glass Platen, Edge/Center/Shadow Erase, Fine Mode, Tint Mode, Skip Feed, Auto Cycle, Line/Photo Mode, Security Mode, Economy Mode, Two-up Mode, Energy Saving Mode, Class and Program Modes
Preset Reductions: (%)	65, 74, 77, 93
Preset Enlargements: (%)	121, 129, 155
Zoom Magnification: (%)	50-200% (in 1% increments)
Options:	Platen Cover*, ADF (50 Sheets), Color Print Cylinders, GDI & Network Compatible Computer Interfaces, Job Separator, Stand
Power Source:	120V, 60Hz, 3A
Power Consumption:	280W
Weight/Shipping Weight:	176.6 lbs./210 lbs.
Dimensions (WxDxH):	53.6" x 27.6" x 24.5" (with trays open)
With cabinet:	53.6" x 27.6" x 39"

*Final machine configuration must include platen cover or ADF. Specifications subject to change without notice. All product names are Trademarks or registered trademarks of their respective companies.

Easy Book Copying

The SD370's glass platen allows for easy copying from a wide variety of originals, including single sheets, books, bound volumes, and 3D objects.

Print In Color and Economize

Optional color drums allow printing in up to 7 standard colors or in any custom matched colors of your choice. An optional "short" drum exclusively prints 8 1/2" x 11" copies providing lower costs-per-copy and increased economy.
